User Interface Design

Read English Document

Teamwork

Knowledge of C#, ASP.NET MVC

Proficient in Git, MongoDB, SqlServer, Postman, XAMPP

CERTIFICATE

APTIS ESOL - BRITISH COUNCIL

2023

Level B2 - 153 points

INTRODUCE

As a final-year Software Engineering student at Ton Duc Thang University, with the skills and knowledge I've acquired throughout my studies, along with my passion for learning, I am eager to take on the role of Tester Intern. I believe I have the ability to contribute to the company and help create products that benefit both the business and the community.

In the coming year, my goal is to become a professional tester and obtain the ISTQB certification.

Within the next 2 years, I aim to become an expert in automated testing, and in 5 years, I aspire to take on the role of Project Manager.

PROJECTS

AUTOMATION TEST STORE (2 MEMBERS)

3/2024 - 6/2024

- Found 23 bugs in 230 test cases and 32 test scopes.

Study the functionality of a simulated e-commerce website - automationteststore.com.

Analyze use cases, write test cases, test report bugs.

Automation testing with Robot Framework - Selenium.

- GitHub link: <https://github.com/phuonglan09/Automation-Test-Store>.
